
Welcome to CAMP

RL “Bob” Morgan
University of Washington
Advance CAMP, Portland, June 2007

Overview

Workshop Topics, Schedule, Methods
A Word from the Sponsors

Advance CAMP Theme

- **Scaling Secure Collaboration**
- **How can campus IAM services and application platforms support the needs of R&HE for inter-institutional collaboration systems that are administerable and usable at many scales?**

Workshop Schedule

Thursday

- Applications, Frameworks, Integration Examples
- Discussion of Current Landscape

Friday

- Developers, Policy, Process
- Conclusions and Directions

Workshop Format

- **“Workshop” means: everyone participates**
 - each participant should offer:
1 opinion, 1 rant, 1 hope, 1 keen observation
 - we are evocative and provocative, not definitive
 - we have a scribe
- **We are setting future agendas**
 - for applications in setting their requirements
 - for campus IT organizations in developing services
 - for funding agencies in setting directions

A Word From Our Sponsors

- **National Science Foundation's
Middleware Initiative (NMI)**
- **NMI – Enterprise Desktop Integration
Technologies (EDIT) Consortium**
 - Internet2
 - EDUCAUSE
 - Southeastern Universities Research Association
(SURA)

NMI-EDIT: Goals

- Create a ubiquitous common, persistent and robust core middleware infrastructure for the R&E community
- Provide tools and services to support inter-institutional and inter-realm collaborations

Thank You

- **Program Committee**

Tom Barton, Steven Carmody, Michael Gettes, Leif Johansson, Chris Mackie, RL “Bob” Morgan

the inimitable Ann West, NMI Outreach Coordinator

Steve Olshansky, Internet2, our scribe

Kerri Sherwood, EDUCAUSE, web and logistics

- **and our presenters**
