

Net@EDU Identity Management Working Group Annual Report, 2007 – 2008

Accomplishments of the IDM WG:

- Mailing list: Seventh most active list providing a collaborative sounding board for campus IDM questions. Activity has ranged across all aspects of IDM and has become a home for IDM questions that once lingered in other lists and areas such as CIO and Security.
- Wiki: A collaborative resources used to house information gathered from EDUCAUSE member meetings and other sources
- EDUCAUSE Live! Spotlight on Identity Management series: An online interactive dialog with IDM technical staff and stakeholders. A new venture with 2 sessions under our belt, this series brings together groups under IDM that are core common groups such as policy and audit with IT where internal partnerships have blossomed to reach a common goal(s).
- Work with Internet2 Mace: Curbside Therapy – Recognizing the signs for an Access Management Strategy. This survey and the follow up presentations are meant to show campuses how the trends and key identifiers to look for when asking if IDM and Access management is a solution for the campus needs.
- Change in Leadership: Linda Hilton take the co-chair position left vacant by Dr. William A. (Bill) Weems. Bill has provided leadership in the IDM group after serving as co-chair for the PKI working group for 4 years.
