CORE DATA SERVICE

2002 Summary Report

Brian L. Hawkins, Julia A. Rudy, and Joshua W. Madsen

EDUCAUSE is a nonprofit association whose mission is to advance higher education by promoting the intelligent use of information technology. Membership is open to institutions of higher education, corporations serving the higher education information technology market, and other related associations and organizations. Resources include professional development activities; print and electronic publications, including books, monographs, and the magazines *EDUCAUSE Quarterly* and *EDUCAUSE Review*; strategic policy advocacy; teaching and learning initiatives; applied research; special interest collaboration communities; awards for leadership and exemplary practices; and extensive online information services. The current membership comprises nearly 1,900 colleges, universities, and education organizations, including 200 corporations. EDUCAUSE has offices in Boulder, Colorado, and Washington, D.C.; www.educause.edu, e-mail info@educause.edu.

Index

- Baccalaureate institutions, and students' access to computers, 29, 30
- Bandwidth
 - shaping, 33–34
 - shaping by direction, 34
- Barone, C.A., x
- Biometric technology, 38
 - status of, 37
- Budget overruns, 43
- Campus Computing Project, v
- Campus information systems
 - analysis of, 42–43
 - course management systems (*see* Course management systems)
 - development systems (*see* Development systems)
 - ERP systems, 41–42
 - financial systems (*see* Financial information systems)
 - grants management systems (*see* Grants management systems)
 - human resources systems (*see* Human resources systems)
 - library systems (*see* Library systems)
 - strategies for acquiring, 43
 - strategies for implementing, 43–44
 - student information systems, 45–48
 - at system/district level, 47
 - types of, 44–52
 - vendors for (*see* Vendors)
 - years of implementation for, 46
- Carnegie classifications, ix
- CAUSE, v
- Compensation
 - for IT personnel, 13–14, 15
 - paid to IT professionals outside central organization, 15
 - ratios for comparison of, 15–16
- Computers
 - campus-owned, for FTE faculty members, 19
 - campus-owned, for FTE students, 19
 - numbers of, on campus, 18
 - replacement cycles, 19–21
 - student-owned, 28–30
- Contractors. *See* Outsourcing
- Core Data Service (CDS)
 - authorization for access to, viii–x
 - goal of, vi
 - groups invited to participate in, viii
 - philosophy for, vii
 - policy of, vii
 - research assessment of, x–xi
 - survey for (*see* Core data survey)
 - survey terms and conditions, viii
 - testing of research instrument, vii
- Core data survey
 - Carnegie classifications in, ix
 - groups invited to participate in, viii
 - and information technology (IT) functions, 3
 - interactive database service component of, ix–x
 - and IT planning, 8–9
 - and IT staffing, 4–8
 - methodology of, viii–x
 - and new technologies, 36–39
 - questions on funding, 11–13

- section five of, 41
 - section four of, 33
 - section one of, 1
 - section three of, 25
 - section two of, 11
 - statistical test of, ix
 - submission of, ix
 - terms and conditions for, vii–viii
 - testing of, vii
 - Web-based version of, ix
- COSTS Project, v
- Course management systems, 30–31, 45, 50
 - faculty use of, 31
 - percentage at system/district level, 47
 - practices, 31
 - vendors for, 51
 - years of implementation of, 46
- Current Issues Survey, v
- Development systems, 45, 49
 - percentage at system/district level, 47
 - vendors for, 50
 - years of implementation of, 46
- Doctoral campuses, funding on, 11
- Duwe, Jack, vi
- EDUCAUSE
 - Center for Applied Research (ECAR), v
 - Core Data Service (CDS) (*see* Core Data Service (CDS))
 - Current Issues Survey, v
 - foundation of, v
 - Research Task Force, iii, v–vii
- EDUCAUSE Center for Applied Research (ECAR), v
- EDUCAUSE Research Task Force, iii
 - goal of, v–vii
 - members of, vi
- Educom, v
- Enterprise resource planning (ERP) systems, 41–42
- Faculty, technological support for, 27–28
- Financial information systems, 48
 - percentage at system/district level, 47
 - vendors for, 48
 - years of implementation of, 46
- Firewalls
 - characteristics of, 38
 - effectiveness of, 39
- FTE staff
 - Doctoral Extensive versus Doctoral Intensive schools, 6–7
 - numbers of, in control IT organizations, 5
 - percentage of, in IT areas, 4, 5, 6
 - staffing practices, 8
 - staffing ratios, 7–8
 - summary statistics of total, 6
- Full-time equivalent (FTE) staff. *See* FTE staff
- Funding
 - for central IT versus total campus IT, 16
 - sources of, 11–13
- Grants management system, 45, 50–52
 - percentage at system/district level, 47
 - vendors for, 52
 - years of implementation of, 46
- Green, Kenneth C., v
- Gregory, John, vi
- Hawkins, Brian, vi
 - influence on assessment model, x
- Huish, Darrel, vi
- Human resources systems, 45, 48, 49
 - percentage at system/district level, 47
 - vendors for, 49
 - years of implementation of, 46
- Information systems. *See* Campus information systems
- Information technology (IT)
 - biometric technology, 37, 38
 - campus information systems (*see* Campus information systems)
 - campus support for, 25–27
 - course management systems for, 30–31
 - demand for research on, v
 - expenditures for, 14–16
 - faculty support, 27–28
 - functions involved in, 3
 - funding for, 11–13
 - leadership (*see* IT administrators)
 - Light Directory Application Protocol (LDAP) technology, 37–38
 - and network speed, 33–34
 - organizations (*see* IT organizations)
 - past research efforts for, v
 - personnel for (*see* IT personnel)

- planning, 8–9
- public key infrastructure technology, 37–38
- security of, 39–40
- smart card technology, 37, 38–39
- and student computing, 28–30
- systems of (*see* Campus information systems)
- use of external suppliers for, 21–23 (*see also* Outsourcing)
- use of service level agreements for, 21–23
- videoconferencing capabilities, 35–36
- video-over-IP technology, 36–37
- voice-over-IP (VoIP) technology, 36
- Web portals, 52–54
- Web services technology, 38, 39
- Internal modem pool access, 34–35
- Internet
 - growth of wireless access, 35
 - high-speed, 30
 - providing remote Internet access, 34–35
 - in residence halls, 30, 35
- IT. *See* Information technology (IT)
- IT administrators
 - communication among, 2–3
 - functions reporting to, 3
 - highest ranking, 1–2
 - percentage of various titles, 1
- IT expenditures, decentralized, 14–16
- IT organization
 - average number of staff in, 4
 - Doctoral Extensive versus Doctoral Intensive schools in, 6–7
 - numbers of FTE student employees in, 5
 - percentage of FTE staff in IT areas, 5
 - percentage of FTE student employees in, 6
 - staffing of (*see* IT staffing)
 - summary statistics of FTE staff in, 6
- IT personnel, compensation for, 13–14, 15
- IT planning, 8–9
- IT staffing. *See also* FTE staff
 - levels of, 4–7
 - practices, 8
 - ratios of, 7–8
- Jackson, Gregory, vi
- Lea, Lucinda, vi
- Leach, Karen, v
- Leydon, Betty, vi
- Libraries, wireless access in, 35
- Library systems, 45, 49
 - percentage at system/district level, 47
 - vendors for, 51
 - years of implementation of, 46
- Light Directory Application Protocol (LDAP) technology, 38
 - status of, 37
- Network connection fees, 17–18
- Network connections, in residence halls, 30
- Networks
 - shaping bandwidth, 33–34
 - speed of, 33–34
- Outsourcing, 21–23
 - administrative systems, 43, 44
 - consulting fees, as part of ERP costs, 42
 - contractors, compensation of, 14
 - contractors, use of, 14
 - percentage of campuses using, 22
- Public key infrastructure (PKI) technology, 37–38
 - status of, 37
- Remote access, 34–35
- Replacement cycles
 - adherence to, 20–21
 - for campus computers, 19–21
 - for various institutions, 20
- Residence halls
 - network connections, 30
 - wireless access in, 35
- Ringle, Martin, vi
- Security
 - with firewalls, 39
 - policy development for, 40
 - and software patches, 39
- Service level agreements, 21–23
- Shalla, Kevin, vi
- Siddall, Scott, vi
- Smallen, David, v, vi
- Smart card technology, 38–39
 - status of, 37
- Software patches, 39–40
- Spicer, Donald, vi

Strine, Ann, vi

Student information systems, 45–48
 age of, 45
 percentage at system/district level, 47
 vendors for, 47–48
 years of implementation of, 45–46

Students, and computer ownership, 28–30

Support. *See* Technological support

Surveys
 by Core Data Service (CDS) (*see* Core data survey)
 Current Issues Survey, v
 for research on information technology (IT), v

System configuration, extent of modification of, 44

Technological support
 availability in classroom, 26–27
 availability of assistance, 25
 availability of e-mail, 25–26
 for faculty, 27–28
 help desk availability, 25

Technology fees
 money collected from, 17
 for residence-hall network connection, 17–18
 schools that charge, 16
 spending of, 17

Training programs, for faculty, 27–28

Vendors
 administrative systems, 44
 course management systems, 51
 data about, use of, 42–43
 developing systems in partnership with, 44
 development systems, 50
 financial information systems, 48
